Cesare Ferrari Group delivers bespoke engineering and production solutions for both residential and contract interior projects in collaboration with architects such as Dordoni Architetti, Antonio Citterio and Partners, Zaha Hadid Architects, David Collins Studio, Martin Kemp Design, Areen Design and DeSallesFlint.

Combination of innovative technologies and hand craft traditions, leads Cesare Ferrari group to be one of highest quality manufacturers made in Italy

The Cesari Ferrari Lab is a department of innovative materials and technology for architecture and interior design. The research of decorative material and finishing, conducted over many years, is now updated by some marvellous examples of decorative glass and, in particular, by a new vanguard collection of printed leathers.

With a fully up-to-date production structure in the North of Italy and friendly, fully-qualified staff, the Cesare Ferrari Group provides professional services to architects and designers for the whole cycle: from implemental drawing development, com-

mercial estimation of projects, material and technology consulting, engineering, mock-ups, engineering, production to delivery and final installation work in any part of the world.

We provide a full project management service from start to finish. The service provided is designed to be cost effective, helping architects to achieve results economically and to the highest standards and detail demanded by modern clients. We are also introduced with longstanding experience to the East European and Middle East markets.

SKILLS & SERVICES

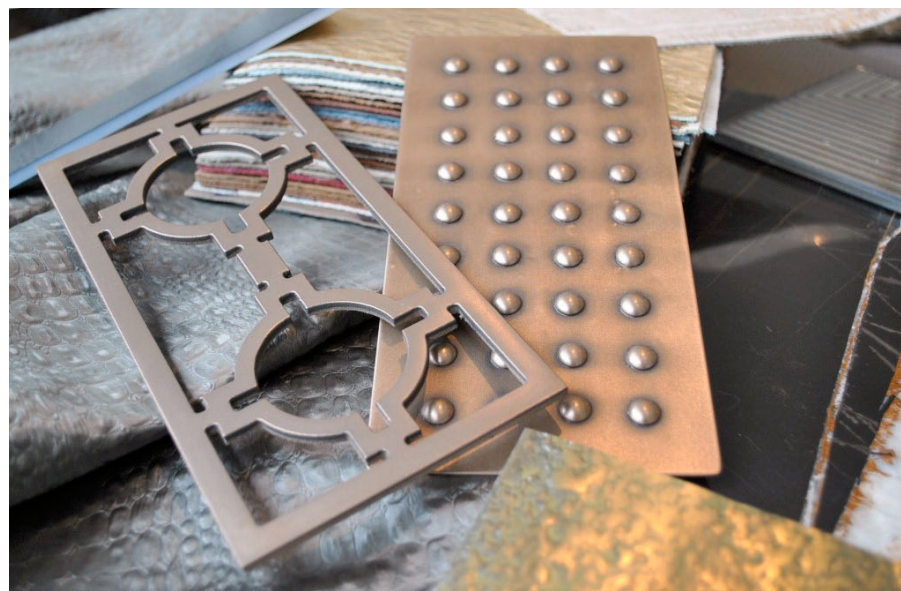

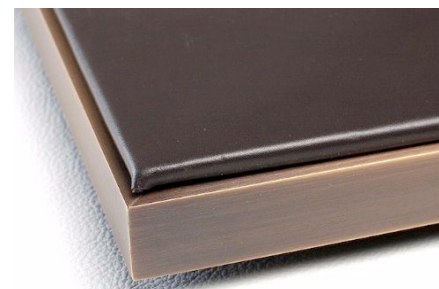

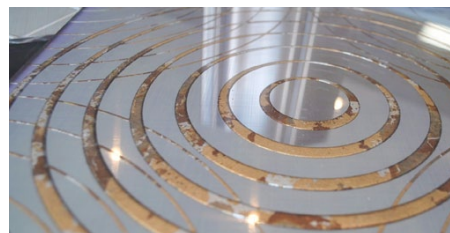

We support you from conception to completion, from design to installation.
We hand over the keys to you, each project is custom-built, tailored to fit you in every detail.

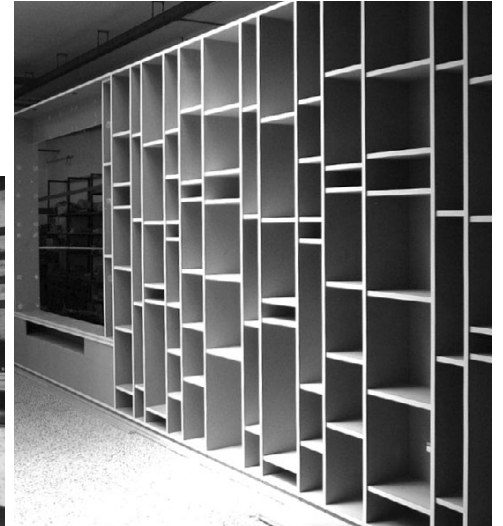

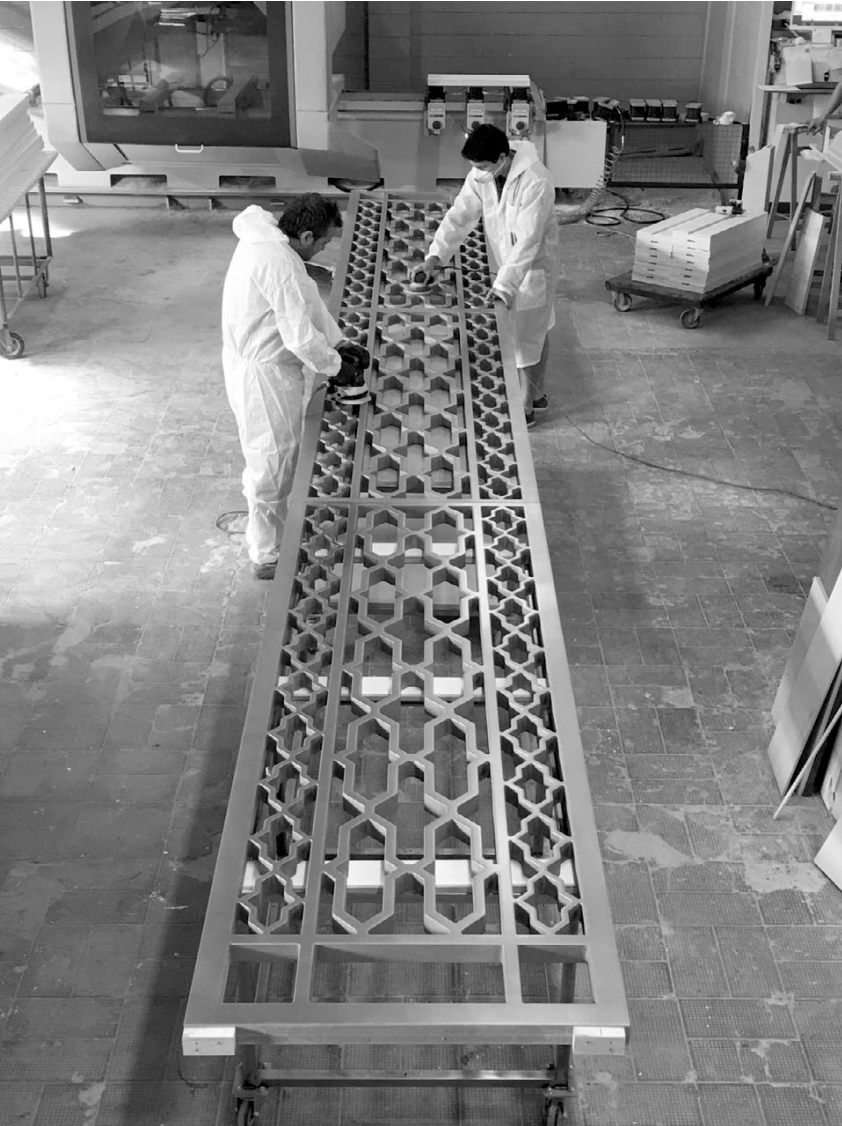

Our services: design, production, installation, fitting based on external designs, graphics and printing of images for all supports and formats, logistics, etc.

VERSATILITY AND RESEARCH

Our success is based on our experience, on the professional skills we have developed in the industry and on our "modus operandi", our approach. We keep a close eye on changing trends, new materials and new solutions: sober, elegant traditional, hi tech, let our creative team tailor one to fit your needs.
